PREFACE

Kentucky Revised Statute (KRS 158.148) requires the Kentucky Department of Education to develop guidelines containing broad principles to guide local school districts in developing their own student discipline codes. Kentucky Administrative Regulation (704 KAR 7:050) establishes the student discipline guidelines required by KRS 158.148. This manual has been developed pursuant to these regulations.

The original Statement of Rights and Responsibilities and Discipline Code was developed by a committee composed of Board members, administrators, teachers, parents, students and interested citizens. The document was then reviewed by legal counsel, presented in public hearings and adopted by the local Board of Education on July 1, 1985.

As required by law, the entire document is reviewed annually and revised as needed. The latest revision was approved by the Rockcastle County Board of Education on July 13th, 2021. Each Principal will give yearly orientation to this Code for parents, teachers, staff and students. In giving the orientation, provisions for communicating with disabled and non-English speaking students will be established and used.

*The Statement of Rights and Responsibilities and Student Code of Conduct is established as a systematic guide to be referenced and applied in managing student conduct. **The application of the Code to matters of student behavior is not limited to school buildings and grounds or to times when the student is in route to or from school, but extends to any activity that is school-related or school-sponsored, either on or off the school campus. The Code also applies to behavior occurring off school grounds which threatens the safety and well-being of students or staff and which directly affects the ability of school staff and officials to ensure a safe and positive learning environment for all.***

All policies and procedures in this Code are intended to reflect current federal, state and local requirements. However, any changes made by the Board of Education to the policies and procedures supersede those printed here and may be found in the Policy and Procedure Manual in the Office of the Superintendent.

II. COMPULSORY ATTENDANCE

(Related Policy 09.123)

All students are required by Kentucky law (KRS 159.030) to attend school every day and to be on time for school and all classes. Students who are absent from school lose valuable instructional time and opportunities for learning critical academic and life skills. Tardies also interrupt the classroom and interfere with the learning environment for all students.

Penalties for failure to comply with truancy laws:

Any parent, guardian, or custodian who intentionally fails to comply with school truancy laws will be referred to the appropriate agency, including the County Attorney, the Court Designated Worker or the Department of Community Based Services (DCBS).

DISTRICT ATTENDANCE POLICIES

A local board of education may adopt reasonable policies that require students to comply with compulsory attendance laws, require truants and habitual truants to make up unexcused absences, and impose sanctions for noncompliance.

SCHOOL TRUANCY & ATTENDANCE RESPONSE TEAM (S.T.A.R.T.)

Rockcastle County School District is committed to academic achievement and success for all students. Regular school attendance is an integral part of that success. To help reach this goal, we have designated a School Truancy & Attendance Response Team (S.T.A.R.T.) at each school to assist students and parents in making attendance a priority.

School Truancy & Attendance Response Team **(START)**

- Possible referral to Department for Community Based Services (DCBS)

**Repeated offenses without improvement in student attendance may result in additional fines or charges.*

ABSENCE AND TARDINESS

All students are expected to attend school regularly. Students who are absent from school are required to have a legitimate excuse. Within three (3) days of a student's return to school after an absence, he/she will present a written note signed by his/her parent/guardian or medical professional to the designated school personnel. If a signed note is not received within three (3) days, the absence will be deemed unexcused. The note should include the current date, the student's (printed) first and last name, date(s) of absence(s) --not just day of week--, the reason for the absence(s) and the parent/guardian signature. **The same note requirements apply to students who arrive late or who leave school early.**

If a student is sent home for illness by the school, the student will be excused for that day, however, if the student is absent for subsequent days the note requirements apply. An "Absence event" is defined as: (1) a tardy (less or equal to 35% of the school day) or (2) an absence (half-day is 36% to 84% of the school day or full day is greater or equal to 85% of the school day).

EXCUSED ABSENCES

(Absences for reasons other than described below are considered unexcused.)

Illness of the student

Medical and dental appointments (times and dates will be verified by the physician's signed statement). Students will be excused only for the length of time of a scheduled doctor's appointment and a reasonable amount of travel time. Doctor's excuses will state the date(s) and/or number of days for which the student will be excused.

Limit on Medical Excuses

After a total of ten (10) cumulative absences due to illness, students are required to present a written statement from a medical professional indicating that the student has a chronic medical condition which would prevent him or her from attending school. The statement must be from a licensed medical professional (doctor or dentist) or in the case of mental illness, from a licensed mental health professional.

Death or severe illness in the student's immediate family

At the discretion of the Principal, students may be excused up to three (3) days for the death or severe illness of an immediate family member (parent/guardian, sibling, and grandparent).

Educational Enhancement Opportunities KRS 159.035 (2)

A student may be allowed up to ten days per school year to participate in an educational enhancement opportunity that the principal determines to be of significant educational value. Participation in an educational foreign exchange program or an intensive instructional program in one of the core curriculum subjects of English, science, mathematics, social studies, foreign language or the arts could be considered an educational enhancement opportunity. An Educational Enhancement Opportunity (EHO) form must be completed by a parent/guardian and approved by the Principal **prior to** the absence.

Religious Holidays and Practices

Students may be excused for religious holidays and practices. Documentation may be required.

College Visits

Up to three (3) visits to colleges or universities may be approved by the Principal and/or the Guidance Office. College visits are restricted to juniors and seniors only. Requests for excusal for College Visits should be made in advance through the High School Guidance Office. The absence will be marked unexcused until documentation from the college/university visited is submitted upon the student's return to school.

4-H Activities KRS 159.035 (1)

Any student enrolled in a properly organized 4-H club will be counted as present at school while participating in regularly scheduled educational 4-H club activities to include 4-H events at the Kentucky State Fair.

Athletic Team Regional or State Tournaments KRS 158.070 (7) (b) and (c)

Beginning with the 2009-2010 school year, any member of a school-sponsored interscholastic athletic team who competes in a regional tournament or state tournament sanctioned by the KBE or the KHSAA and occurring on a regularly scheduled school day may be counted present at school on the date or dates of the competition as determined by local board policy for a maximum of two days per student per year.

State Fair KRS 158.070[6]

One (1) day for attendance at the Kentucky State Fair.

Testing for driver's permit or license

Students may be excused for ½ day for driver's license/permit testing.

Armed Forces Days KRS 159.035 (3)

Deployment

If a student's parent, de facto custodian or other person with legal custody or control of the student is a member of the United States Armed Forces, including a member of a state National Guard or a Reserve component called to federal active duty, a public school principal will give the student an excused absence for one day when the member is deployed and an additional excused absence for one day when the service member returns from deployment.

Armed Forces Rest and Relaxation Days

A public school principal will give the student excused absences for up to ten days for visitation when the member is stationed out of the country and is granted rest and recuperation leave.

Documentation of deployment/return is required for students taking an AFD day(s) and AFR day(s). If no documentation exists, student will be marked absent.

A student receiving an excused absence under these subsections will have the opportunity to make up schoolwork missed and will not have his or her class grades adversely affected for lack of class attendance or class participation due to the excused absence.

Other Absences

A student will be considered excused from school upon presentation of a note signed by a parent or guardian indicating the reason for the student's absence (examples of reasons for a parent note include, but are not limited to, temporary illness for which no doctor visit was necessary or a family emergency).

Limit on Parent Notes

High School students are limited to four **(4) parent notes** per school year.

Middle/Elementary School students are limited to six **(6) parent notes** per school year.

Special Education

In cases, which involve students with disabilities, procedures mandated by federal and state law will be followed.

HOME/HOSPITAL INSTRUCTION (704 KAR 7:120)

A local board of education will operate a program for home/hospital instruction for children of school age pursuant to KRS 157.270. A child or youth will be provided home/hospital instruction if the condition of the child or youth prevents or renders inadvisable attendance at school as verified by a signed statement in accordance with KRS 159.030(2).

Student Supervision

In addition to the teacher and student, an adult will be present in the home/hospital room during the time the home/hospital instruction teacher is present.

Minimum Requirement for Instruction

An application for home/hospital instruction will be accepted only for a student for whom there is an expectation of an inability to attend regular school for **more than** five (5) consecutive school days.

Acute Illness or Injury

Parents of students suffering from acute illness or injury should notify their Schools' attendance secretary as soon as possible after the initial illness or injury to begin the Home/Hospital application process.

Planned Surgery/Treatment

Parents may apply for Home/Hospital Instruction for their student *in advance* of planned surgery or treatment (e.g. tonsillectomy). Doing so will help to ensure minimal disruption of the educational process.

Extended Illness

If the health professional who completed the initial application determines the student needs additional time for services, the health professional will submit a written statement providing a brief explanation for the need for the extension. Additional time, up to two (2) weeks, may be granted by the Home/Hospital Instruction Review Committee. The extension request must be received and approved *prior to* the provision of any extended services.

Long Term or Intermittent Placement for Chronic Condition

In certain cases, a student may require placement on home/hospital instruction for the treatment of a chronic condition. In such cases, after the initial application has been reviewed and approved, the home/hospital instruction review committee may approve additional instances of instruction as needed. The Committee will review intermittent placement at least every six (6) months, and at which time a statement from a *second* medical professional will be required for continued program eligibility. The exemption will be reviewed annually with a plan and timeline developed for returning the child or youth to school or documentation maintained verifying why return is not feasible, in accordance with the requirements of KRS 159.030(2).

Notice

Parents should notify School or District staff *prior to* the need for extended services, and/or school reentry or exit to home/hospital instruction. Failure to provide timely notice to school staff may terminate the student's eligibility for home/hospital instruction, returning the student to regular school attendance.

Mental Health

An application for mental health reasons may be considered only if completed by a licensed mental health professional.

Pregnancy

The condition of pregnancy **is not**, in and of itself, considered to be a condition which would prevent a student from attending school. The nature and extent of any complication will be indicated by a licensed medical professional prior to consideration of home/hospital instruction.

Extracurricular Activities (Including Employment)

A student may not work or participate in athletic activities while receiving Home/Hospital Instruction.

Students in Special Education Programs

Eligibility for home/hospital instruction for students with disabilities will be determined by the Admissions and Release Committee (ARC) in accordance with the Individual Education Program (IEP), with the services being determined to be in the least restrictive environment. The ARC decision for home or hospital instructional services eligibility will be based on appropriate documentation of student need, including medical or mental health evaluation information.

Procedures for Home/Hospital Referral

Pursuant to its authority established in KRS 160.290, a local board of education will implement referral and placement procedures in accordance with local board policy for children or youth with temporary conditions, including fractures, surgical recuperation, or other physical, health, or mental conditions.

Application Submission and Approval (See Appendix for Application)

An Application for Home/Hospital Instruction must be completed and submitted for initial approval **as soon as possible after the initial illness or injury**. Applications for Home/Hospital Instruction may be obtained from school personnel or online at <http://www.education.ky.gov>. Home/Hospital instruction can only begin **after** the completed application has been **received and approved**. Any days missed prior to the acceptance of the Application will be subject to the regular attendance policy.

High School Students (KRS 160.290)

Alternative Curriculum for High School or Middle School Students

The use of alternative curriculum, including, but not limited to, electronic (online) instruction, may be considered as a mechanism to continue course credit. Students completing an alternative curriculum will be enrolled in an Alternative School program. The use of electronic instruction, as approved by the local board of education, will be **in addition to** the minimum of two (2) one (1) hour home visits per week.

Credits

The number of credits that may be earned by secondary students served on home/hospital instruction will be determined pursuant to the local school board's authority.

III. CODE OF ACCEPTABLE BEHAVIOR AND DISCIPLINE

The Rockcastle County Board of Education recognizes its responsibility to give all reasonable support and assistance to the maintenance of discipline while students are under the authority of the Board of Education.

Discipline problems are less likely to occur in classes which are well taught and which maintain a high level of student interest. However, teachers have the authority and responsibility to use reasonable methods to maintain classroom control without having to refer students to the school principal.

Rockcastle County Public Schools will actively model and teach positive behavior to students. The following rules, regulations, and procedures are in no way an attempt to remove the fundamental responsibility for classroom discipline from the teachers. ***This Code is not limited to school buildings and grounds or to times when the student is in route to or from school, but extends to any activity that is school-related or school-sponsored, either on or off the school campus. The Code also applies to behavior occurring off school grounds which threatens the safety and well-being of students or staff and which directly affects the ability of school staff and officials to ensure a safe and positive learning environment for all.***

Students at different ages and grade levels are expected to assume varying degrees of responsibility for their actions. Therefore, different disciplinary measures have been developed to reflect different levels of maturity and self-discipline. In determining the appropriate disciplinary option, consideration needs to be given to the number of times a student has had to be disciplined and how many times a particular option has been used. **Repeated violations may require more severe consequences.**

Special Education Students: In cases involving students with disabilities, the procedures mandated by federal and state law, and the students' Individual Education Plan, will be followed.

All policies and procedures in this Code are intended to reflect current federal, state and local requirements. However, any changes made by the Board of Education to the policies and procedures supersede those printed here and may be found in the Policy and Procedure Manual in the office of the Superintendent.

It is not feasible to address any and all potential situations of misbehavior and violations of criminal laws or school regulations in this code. Discipline measures for acts not specifically addressed in this code are left to the discretion of the Principal or his/her designee.

In all situations involving use of physical restraint (including restraint by core trained personnel) the student shall be monitored for physical and psychological well-being for the duration of the restraint and personnel shall use only the amount of force reasonably believed necessary to protect the student or others from imminent danger of physical harm per RCS Policy (09.2212).

Detention

Students who engage in prohibited or disruptive behavior may be placed in detention for a specified period of time, (before during or after school) at the discretion of the Principal or his/her designee.

Alternative Education for Middle and High School Students

Rockcastle County Schools recognizes the need for some students to receive an education in a non-traditional setting. This Alternative education setting includes a number of approaches to teaching and learning other than mainstream or traditional education. The Alternative school environment emphasizes the value of small class size, close relationships between students and teachers, and a sense of community. This setting is also more conducive to the needs of students who may require more intensive counseling, social services including health assistance, and/or behavioral assessment and management.

Alternative Education Referral

A student may be referred to the Alternative program by a parent/guardian, teacher or school administrator. To initiate a referral, teachers and parents should contact the school Principal.

Suspension and Expulsion

KRS 158.150 "All pupils admitted to the common schools will comply with the lawful regulations for the governance of the schools. Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students or school personnel, the threat of force or violence, the use or possession of alcohol/drugs or other illegal substance, stealing or destruction or defacing of school property or personal property, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property as well as off school property at school activities constitutes cause for suspension or expulsion from school."

Limitations

For certain violations, administrators, such as the Superintendent and Principal, may suspend a student from school for up to ten (10) days per incident. Only the Board of Education may suspend for a period longer than ten (10) school days or expel a student.

Suspension Reporting

The student's parent/guardian and teachers will be informed of the suspension immediately. A standard Letter of Suspension will be written by the administrator. Copies of the suspension letter will be sent to the parent and a copy to the Superintendent.

Suspension Review

Any suspension given by a Principal or his/her designee may be reviewed by the School Director of Pupil Personnel, the Superintendent, or the Board of Education in accordance with the appeals procedure of this Code.

Elementary Students

Suspension of elementary school students will be considered only in exceptional cases where there are safety issues for the child or others.

Expulsion

Following legally required due process, the Board may expel any pupil from the regular school setting for misconduct as defined by law for periods longer than ten (10) days. In cases of expulsion, provision of education services will be required unless the Board determines, on the record and supported by clear and convincing evidence, that the expelled student poses a threat to the safety of other students or school staff and could not be placed in a state-funded agency program.

Behavior that may be determined to pose a threat includes, but is not limited to, the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior that may endanger the safety of others.

Action to expel a pupil will not be taken until the parent of the pupil has had an opportunity for a hearing before the Board. The expulsion hearing may be held during the next regularly scheduled Board of Education meeting or at a special called Board meeting. The Superintendent will present options for providing educational services to expelled students to the Board for approval. Any decision to expel will be final.

Suspended/Expelled Student Not Allowed on School Property

A suspended student will not be allowed to enter any Rockcastle County Public School building or grounds, including the Area Technology Center, unless accompanied by a parent and with permission of an administrator. The student will not attend or participate in any school program or function, during or after school, and will not be permitted to ride a school bus. Violation of this provision may result in further disciplinary action including, but not limited to, additional suspension days or expulsion.

Probation

A probationary period may be established for students when a school principal determines that the student would benefit more by remaining in the classroom than by incurring an out-of-school suspension. When a suspension has been met for a certain number of days after a due process hearing, as required in this Code, the principal may probate the suspension for a period not to exceed the remainder of the school year on condition of the good behavior of the student. If, in the sole judgment of the principal, the student has been guilty of any improper behavior, the probation will be revoked by the principal and the suspension immediately implemented.

A student who receives a suspension may be eligible for early reentry provided his/her parents/guardian meet with the principal in conference beforehand. If satisfactory progress is made in resolving the problem, the student may be allowed to return to class before the suspension period is determined.

This conference may take place at any time during the suspension period, but must precede reentry to classes. The decision as to whether or not a student received an early reentry is dependent upon the judgment of the principal as well as the nature and circumstances of the offense. Suspension for certain serious or repetitious offenses may nullify the early reentry privilege.

SEARCH/SEIZURE

Authorized Personnel

The purpose of the search is to protect the safety and property of others. Authorized personnel (defined as the Principal or a certified person directly responsible for the conduct of the student) have the right to search students, their belongings, lockers, desks, automobiles, or their property if a reasonable suspicion exists that the search may reveal evidence the student has violated a school rule, Board policy, or the law. Search of a student's person will be conducted only with the express authority of the Principal.

Witness

When a pat-down search of pupil's person is conducted, the person conducting the search will be the same sex as the pupil; and a witness of the same sex as the pupil will be present during the search. No search of a pupil will be conducted in the presence of other students.

Strip Search Prohibited

In no instance will the school official strip search any student.

Property

School property, such as lockers and desks that are jointly held by the school and the student may be searched on a regular basis to maintain the ongoing educational process of the school. Students should not expect privacy for items and information left in such locations. A single desk, locker or a technology resource/account may be searched pursuant to reasonable suspicion. During these inspections, items that are school property, illegal items (e.g., weapons, drugs, etc.), or other possessions reasonably determined by school authorities to be a threat to the safety or security of students or staff may be seized. Items seized will be held in the Principal's office or turned over to the authorities as required by law. Items held by school personnel may be returned to the student or parent/guardian at the discretion of the school Principal.

Trained Dogs

The Board will authorize the Superintendent to use trained dogs to locate contraband (prohibited items) on school grounds subject to the following conditions:

- The Principal or the Principal's designee will be present.
- The dogs may be used for blanket searches of lockers. The dogs may be used for individualized sniffs of lockers when a school official has reasonable suspicion that the particular locker contains contraband.
- Searches involving dogs will be conducted only when students are in classrooms; no student will be in the vicinity of lockers or other site being searched.

Metal Detectors

In accordance with procedures reviewed by the Board, all persons entering school property may be subject to a fixed or handheld electronic screening detector. An affirmative signal or response from a detector will serve as reasonable suspicion for a more intrusive search. School administrators are authorized to use metal detectors:

- To search an individual when there is reasonable cause to believe that the individual possesses a weapon at school;
- To search individuals or property when weapons have been found at school;
- To search individuals or property when violence involving weapons has occurred at school;
- To search individuals or property when conditions exist in the community that may result in individuals bringing weapons to school;
- To search all persons entering the premises;
- To search all persons on a random basis in an effort to prevent weapons from being brought to school.

Video Cameras

Video cameras may be installed in school facilities to record student behavior. Evidence of student misbehavior recorded on video may be used to discipline students.

HARASSMENT/DISCRIMINATION

(Related Policy 09.42811)

The Board has adopted policies ensuring that students are not denied equal educational opportunities and do not suffer harassment or discrimination. No discrimination is allowed on the basis of race, creed, color, national or ethnic origin, age, religion, sex, political affiliation, veteran status, or disability.

Definition

Harassment/Discrimination is unlawful behavior based on race, color, national origin, age, religion, sex or disability that is sufficiently severe, pervasive, or objectively offensive that it adversely affects a student's education or creates a hostile or abusive educational environment. Harassment includes the intimidation by threats of or actual physical violence; the creation, by whatever means, of a climate of hostility or intimidation, or the use of language, conduct, or symbols in such manner as to be commonly understood to convey hatred, contempt, or prejudice or to have the effect of insulting or stigmatizing an individual.

Harassment/Discrimination Prohibited

Harassment/Discrimination is prohibited at all times on school property and off school grounds during school-sponsored activities. This prohibition also applies to visitors to the school who may come into contact with employees and students. Note: Acts of harassment/discrimination based on sex may be committed by persons of the same or the opposite sex.

Reporting by Complainant or Observer

Individuals who believe they have been a victim of an act of harassment/ discrimination or who believe they have observed others being victimized will, as soon as reasonably practicable, report the act to the proper authority.

The Principal is responsible for receiving reports of harassment/discrimination at each school. Reports may also be made directly to the Superintendent, his/her designee, or the District Title IX Coordinator. The District will not be deemed to have received a complaint of harassment/discrimination if a report is not made to one of these designated officials. In cases of alleged sexual harassment, the District Title IX Coordinator will be notified.

The Superintendent or his/her designee will also provide for the development of alternate methods of filing complaints for individuals with disabilities and others who may need accommodations.

Disciplinary Action

District staff will provide for a prompt and equitable resolution of complaints concerning harassment/discrimination. Students who engage in harassment/discrimination of an employee or another student will be subject to disciplinary action, including but not limited to, suspension and expulsion.

Prohibited Conduct

Depending on the circumstances and facts of the situation, and within the definition of harassment/discrimination contained in this policy, examples of conduct and/or actions prohibited under this policy include, but are not limited to:

- Any nicknames, slurs, stories, jokes, written materials, objects or pictures that are lewd, vulgar, or profane and relate to any of the protected categories listed in the definition of harassment/discrimination contained in this policy.
- Unwanted touching, sexual advances, requests for sexual favors, and spreading sexual rumors;

- Causing an individual to believe that he/she must submit to sexual conduct in order to participate in any program or activity or that an educational decision will be based on whether or not the individual submits to sexual conduct;
- Implied or overt threats of physical violence or acts of aggression or assault based on any of the protected categories;
- Seeking to involve students with disabilities in antisocial, dangerous or criminal activity where the students, because of disability, are unable to comprehend fully or consent to the activity; and
- Destroying or damaging an individual's property based on any of the protected categories.

Procedures

Investigation

Investigation of allegations of harassment/discrimination will commence as soon as circumstances allow, but not later than three (3) school days following the submission of the original written complaint. A written report of investigation findings will be completed within thirty (30) calendar days of the commencement of the investigation unless additional time is required due to the involvement of law enforcement or other governmental agency.

Failure by an employee, immediate supervisor, Principal, and/or Superintendent to initiate an investigation of alleged harassment/discrimination, to follow approved procedures, or to take corrective action will be cause for disciplinary action.

Protection of Complainant and Retaliation Prohibited

The Superintendent or his/her designee will take measures to protect complainants during an investigation. No one will retaliate against an employee or student because he/she files a written grievance, assists or participates in an investigation, proceeding, or hearing regarding the charge of harassment/discrimination of an individual or because he/she has opposed language or conduct that violates this policy. The Superintendent will take steps to protect employees and students against retaliation.

Prevention/Corrective Action

The Superintendent or his/her designee will provide for a process to identify methods to correct and prevent reoccurrence of the harassment/discrimination. This process will be implemented within three (3) school days of the submission of the written investigative report. If corrective action is not required; an explanation shall be included in the report.

Dissemination of Harassment/Discrimination Policy

The Superintendent or his/her designee will provide for age-appropriate training during the first month of school to include an explanation of prohibited behavior and the necessity for prompt reporting of alleged harassment/discrimination.

Student handbooks will include information to assist individuals in reporting alleged harassment/discrimination and such other measures as determined by the Superintendent/designee. Method(s) used shall provide a summary of this policy, along with information concerning how individuals can access the District's complete policy/procedures and obtain assistance in reporting and responding to alleged incidents. Students, parents or guardians, as appropriate, will be directed to sign an acknowledgement form verifying receipt of information concerning this policy as part of the Board-approved code of acceptable behavior and discipline.

Notification of Parent/Guardian

Within twenty-four (24) hours of receiving an allegation of harassment/discrimination, school officials or District personnel will attempt to notify the parent/guardian of both the victim and the accused. In circumstances also involving suspected child abuse, additional notification will be required by law. (See Policy 09.277)

Appeal

Upon the completion of the investigation and correction of the conditions leading to the harassment/discrimination, any party may appeal any part of the findings and corrective actions to the Superintendent.

If a supervisor is an alleged party in the harassment/discrimination complaint, procedures will also provide for addressing the complaint to a higher level of authority.

False Complaints

False or malicious complaints of harassment/discrimination may result in disciplinary action taken against the complainant.

BULLYING/HAZING

(Related Policy 09.422)

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff and visitors to the schools.

Bullying means any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated:

1. **That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event: or**
2. **That disrupts the education process.**

These may include, but are not limited to, name calling, teasing, threatening, social exclusion, and cyber bullying. Cyber bullying is a sub-set or method of bullying. Cyber bullying can include a wide range of unacceptable behaviors, including harassment, threats and insults, and like face-to-face bullying, cyber bullying is designed to cause distress and harm. Bullying may be physical, verbal, emotional or sexual in nature. The use of lewd, profane or vulgar language is prohibited. In addition to bullying, students shall not engage in behaviors such as hazing, menacing, taunting, verbal or physical abuse of others, or other behavior that disrupts a student's access to an education or is harmful to his/her well-being. Such behavior is disruptive of the educational process and interferes with the ability of other students to take advantage of the educational opportunities offered.

- **Hazing** refers to an act that injures degrades or disgraces another student or other person.
- **Menacing** refers to intentionally placing another person in reasonable apprehension of imminent physical injury.

These provisions shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process. However, students who violate this policy shall be subject to appropriate disciplinary action. Any student who feels he/she has been the victim of bullying/hazing or any violation of this Code should immediately report the incident to any teacher, counselor or administrator in the student's school.

FREEDOM OF SPEECH

The provisions of this policy will not be interpreted as applying to speech otherwise protected under the state or federal constitutions where the speech does not otherwise materially or substantially disrupt the educational process, as defined by policy 09.426, or where it does not violate provisions of policy 09.422.

DUE PROCESS

Unless immediate suspension or expulsion is necessary to protect persons or property or to avoid disruption of the educational process, students will not be suspended or expelled until they have been given due process. Due process must be given before educational benefits are taken away and include:

- Oral or written notice of the charge(s)
- An explanation of the evidence if the student denies the charge(s)
- An opportunity for the student to present his/her own version of the facts concerning the charge(s)

RECORDS

Disciplinary records are kept by the administrator and/or are recorded in the Student Information System (Infinite Campus). Student discipline records are kept by the assigned administrator and are available upon request to appropriate teachers, administrators, counselors, the offending student and/or or parent as allowed by the Family Educational Rights and Privacy Act of 1975 (FERPA).

Records transferred to another school must reflect the charges and final action of an expulsion hearing if the student was expelled for homicide, assault, or an offense in violation of state law or school regulations governing weapons, alcohol or drugs. Records of a student facing an expulsion hearing on charges described above will not be transferred until the expulsion hearing process is completed.

STUDENTS WITH DISABILITIES

In cases which involve students with disabilities, procedures mandated by federal and state law for students with disabilities will be followed. Students with disabilities who are eligible for services under federal law may be expelled for behavior unrelated to their disabilities, as long as legally required procedural safeguards are followed. Education services must continue for IDEA eligible students who are expelled.

OTHER CLAIMS

When a complaint is received that does not appear to be covered by this policy, administrators will review other policies that may govern the allegations, including, but not limited to, 09.426 and/or 09.42811. Harassment/discrimination allegations will be governed by Policy 09.42811.

Dear Parent/Guardian,

The most important function for Rockcastle County Schools is to provide the safest learning environment possible for all of our students and school staff members.

Unfortunately, in recent years, schools in Kentucky have experienced an escalation of terroristic threats being made by students with intent to do harm to either other students or school staff members. In fact, between January 23rd and April 30th of the 2018-2019 school year, Kentucky schools experienced 294 terroristic threats that resulted in disruption to the educational process. In many of those cases, school officials and law enforcement officials were forced to close schools to investigate the threats that had been made.

Terroristic Threatening in the second degree is defined in state law (KRS 508.078) (1) A person is guilty of terroristic threatening in the second degree when, other than as provided in KRS 508.075, he or she intentionally:

b) Makes false statements by any means, including by electronic communication, for the purpose of:

- 1. Causing evacuation of a school building, school property, or school-sanctioned activity;**
- 2. Causing cancellation of school classes or school-sanctioned activity; or**
- 3. Creating fear of serious bodily harm among students, parents, or school personnel**

(For the complete text for KRS 508.078 please see the attached page.)

Such threats to Rockcastle County students and school staff will not be tolerated. School district officials in coordination with responding law enforcement agencies will **pursue immediate legal charges for felony terroristic threatening in the second degree, to the absolute fullest extent of the law, against anyone who makes such threats, including students.**

It is imperative that you discuss this critically important matter with your student as soon as possible. Please ensure that your student never becomes a party to such an offense by educating him/her on the seriousness of its consequences.

We appreciate your partnership in keeping our school district the safest place for your student to learn and grow.

If you have any questions or concerns, please contact your child's school at your convenience.

Sincerely,
Rockcastle County School Administration

PLEASE CAREFULLY REVIEW DETAILS OF KRS 508.078 ON FOLLWING PAGE.

DEADLY WEAPONS

Students are never allowed to bring a weapon to school. The Board urges parents and other citizens to make sure that students do not have inappropriate access to weapons.

Deadly Weapons Prohibited

Except for authorized law enforcement officials, the Board specifically prohibits the carrying of concealed weapons on school property.

Upon initial enrollment in the district in any grade, a child must present his/her birth certificate in order that an accurate recording of the date and place of birth may be on the school record.

Immunization

No pupil will be initially enrolled in any school of the District until he/she has presented an immunization certificate or a physician's statement to the school principal that the immunization program has been completed pursuant to the provisions of KRS 158.035.

(If enrolling from out of state, information must be transferred to Kentucky forms.)

Residence Defined

Only pupils whose parents are residents of Rockcastle School District, or pupils who are legal residents of the school district, or otherwise provided by state law, will be considered residents and entitled to the privileges of the Rockcastle County Public School District. All other pupils will be classified as non-residents for school purposes.

Any pupil attending Rockcastle County Schools will be living with his parents or legal guardian. Guardianship must be established through the courts and a copy of the guardianship papers filed with the school or the Director of Pupil Personnel.

SCHOOL BUS RULES

The privilege of any pupil to ride a bus is conditioned upon their good behavior and observance of the following rules and regulations. Pupils violating these rules and regulations will be reported to the principal of the school that the pupil attends for necessary corrective action.

Safety is the primary concern in the transportation of pupils. In order to assure proper safety, it is vital that pupils and parents understand the rules and regulations of school bus riding. Following is a list of basic rules and regulations as adopted by the Rockcastle County Board of Education and the Kentucky Department of Education:

At the Bus Stop

- Arrive at the assigned bus stop ten (5) minutes before bus time. The driver is not permitted to wait for students.
- Keep all articles off the roadway and remain well clear of traffic.
- Do not damage personal property.
- Do not disturb residents by making excessive noise.
- Unauthorized conduct, such as fighting or damage to property, may be subject to action by local police as well as from the school.
- Wait until the bus stops and then walk to the bus door in orderly fashion.
- Students living on the opposite side of the road from a bus stop should wait on their side until the bus arrives and the driver signals them to cross.
- Students may use only that stop nearest their residence, unless written permission is obtained from their principal and provided to the bus driver.
- Never stand in the road while waiting for the bus. Parents should encourage safety measures for pupils as they wait for the bus and walk home from the bus.

On the Bus

- Obey the rules posted on the bus.
- The bus driver may assign seats. Students must be seated upon boarding the bus and must not change seats while the bus is in motion. Bus riders will share seats as directed by the driver.
- Eating and drinking are not permitted on the bus.
- Neither the driver/monitor nor students are permitted to use tobacco products while on a school bus.
- Weapons, including explosives and dangerous instruments are prohibited from school buses.
- No animals, or other items that might frighten other riders or distract the driver, are permitted on school buses.
- Nothing will be placed in the aisle of the bus or where it would hamper evacuation in case of emergency.
- Profanity and obscene gestures are prohibited at all times.
- Excessive noise is prohibited.
- Riders will not extend any portion of their bodies outside the bus.
- Riders will never use the rear emergency exit except upon direction of the driver or other competent authority.
- Riders will refrain from any language or action that might tend to embarrass or intimidate another student. (*Harassment while riding a school bus may result in permanent suspension of bus riding privileges.*)

Parents/guardians are responsible for making arrangements for supervision of children when school is dismissed early or cancelled. Early dismissal or cancelation of school notices will be disseminated via one or more of the following methods:

- District Website: <http://rockcastle.kyschools.us>
- Local TV and Radio Stations

Disciplinary Action

Violations of the bus rules and regulations will be reported to the appropriate school principal. The principal will record the incident and determine the appropriate disciplinary action. Should any pupil persist in violating any of these regulations, it will be the duty of the driver to notify the principal and, after due warning has been given to the pupil and such violations persists, the principal and/or Board of Education will then forbid such disobedient pupil the privilege of riding the bus. Written notice of the action of the principal will be furnished to the parent and the superintendent.

Personal Vehicle Use

At no time will a student riding a school bus leave that bus and get into a personal vehicle that is parked either on or off a school campus without prior written approval of both the Principal of the school the student attends and the Principal of the campus on which the bus/vehicle is parked.

Bus Evacuations

Evacuation drills will be conducted in accordance with state law. Bus drills consist of an orderly use of the available exits on the bus and are designed to familiarize students with the proper safety procedures to be followed in case of emergency.

Unsafe Condition - Removal from Bus

Whenever the bus driver determines the existence of an unsafe condition, the bus must be stopped until the unsafe condition no longer exists. Assistance may be requested from the Transportation Division whenever the unsafe condition is beyond the capability of the driver to correct. Drivers may request the removal of students who are responsible for the unsafe condition.

Unsafe Condition

Any condition which, if permitted to continue, could result in injury to a student is considered unsafe. Some examples include, but are not limited to,:

- Throwing items inside or out of the bus.
- Failure to remain properly seated.
- Improperly exiting the bus.
- Fighting, yelling and loud talking.
- Extending body parts out the windows.
- Damaging any part of the bus.
- Acts designed to intimidate or otherwise harass other students.
- Failure to carry out instructions from the driver.

Video Cameras

All Rockcastle County School buses are equipped with audio/video recording devices. These recordings may be used to document events and responsibility for actions which occur on the buses.

Special Instructions – Bus Passes

Students must ride their assigned bus and must enter/exit the bus at their designated bus stop unless they have been issued a signed bus pass from the principal. Parents must write a note to the principal requesting permission for students to ride another bus or to enter/exit at a different stop. The note must include a phone number where parents can be reached for verification.

Stopped School Buses

School buses stopped for the purpose of loading and unloading students will have the side “stop arm” activated. Any time the stop arm is out and lights are flashing, all traffic must stop. It is not permissible, even on school property, to pass a school bus while it is loading or unloading students. An exception is when the bus is on a multi-lane highway, traffic going in the opposite direction does not have to stop. School bus drivers are encouraged to file complaints with the local police department whenever the stop arm is violated. Convictions for stop arm violations normally result in an assessment of six points on the driver’s license, along with a fine and court costs.

ACTIVITY ELIGIBILITY

Determination of athletic eligibility will be made in compliance with applicable policies, administrative procedures, and Kentucky High School Athletic Association requirements.

GRIEVANCE PROCEDURE - TITLE VI/TITLE IX/SECTION 504

(Related Policy 09.42811)

Any student, parent or employee who feels they have been discriminated against or denied an opportunity because of their race, color, national origin, sex, handicap, age, religion or marital status has the right to file an informal and/or a formal complaint.

Conditions

- All grievances are individual in nature and must be brought by the individual grievant.
- All grievance proceedings will be conducted outside the regular school day and at a time and place mutually agreed upon.
- The grievant will be permitted to have not more than two (2) representatives.
- All attendant records will be filed in the office of the Principal and/or Superintendent and will be considered private information and separate from the student's educational records. All records will be kept for a minimum of three (3) years.
- No reprisal will be taken against any aggrieved student because of the filing of a grievance.

Time Limits

- Days referred to in the grievance initiation form will be school days.
- The time limits stated in various sections of these procedures may be extended by mutual consent of the Board, its authorized agents, and the grievant.
- If no extension occurs and no appeal is filed at the next level of this grievance procedure, the grievance will be considered to have been settled and terminated at the previous level, and the answer given at that level will stand.

Principal/School Council Involvement

- When appropriate, the grievant will give his/her communication directly to the Principal, thus bypassing the teacher or other employee. This action will be taken only in those instances where the matter communicated is of such a personal and private nature that it cannot be effectively communicated at a lower level or in those instances where the nature of the grievance would require the initial response of the Principal.
- The Principal reserves the right to redirect the communicator to the appropriate level and/or consult with the council, as appropriate.

Superintendent/Designee Involvement

- When appropriate, the grievant will give his/her communication directly to the Superintendent, thus bypassing the Principal. This action will be taken only in those instances where the matter communicated is of such a personal and private nature that it cannot be effectively communicated at a lower level or in those instances where the nature of the grievance would require the initial response of the Superintendent.
- The Superintendent reserves the right to redirect the communicator to the appropriate level.

Board Of Education Involvement

- If the student, after reviewing the Superintendent's response, desires direct communication with the Board of Education, the student may present his/her written communication to the Superintendent for transmittal to the Board of Education, or notify the Superintendent ten days prior to the meeting of the Board at which the student wishes the grievance presented. Students contacting Board members individually about a grievance will be advised to communicate with the entire Board.
- If the Board decides to review the grievance, the student will then be afforded an opportunity to appear before the Board at the next regular meeting for relevant discussion of the student's communication. If the student does not wish to make a verbal presentation, the student's right to refrain from such activity will be respected.

- The Superintendent or the grievant will present the communication to the Board of Education at its next regularly scheduled meeting. The Board of Education will consider the grievance, and will provide the student a written response within ten (10) days after the next regularly scheduled meeting of the Board or following the meeting of the Board at which the grievance was initially presented. The decision of the Board of Education will be final.

Grievance Coordinator

The Principal of each school will serve as the Grievance Coordinator for that school. When appropriate, the grievant may bypass the school Principal and contact the Superintendent directly (see “Superintendent/Designee Involvement” on the preceding page).

Pursuant to KRS 159.030, Section (2), before granting an exemption under paragraph (d) of subsection (1) of this section, the board of education shall require satisfactory evidence, in the form of a signed statement of a licensed physician, advanced registered nurse practitioner, psychologist, psychiatrist, chiropractor or public health officer, that the condition of the child prevents or renders inadvisable attendance at school or application to study. On the basis of such evidence the board may exempt the child from compulsory attendance. Eligibility for home/hospital instruction for students with disabilities shall be determined by the Admissions and Release Committee (ARC) in accordance with their Individual Education Program (IEP), with the services to be in the least restrictive environment. In lieu of this application, the ARC chairperson shall provide written notice of this eligibility to the local Director of Pupil Personnel (DPP) for purposes of program enrollment.

Any child who is excused from school attendance more than six (6) months must have two (2) signed statements from two different local health personnel which can be a combination of the following professional persons: a licensed physician, advanced registered nurse practitioner, psychologist, psychiatrist, chiropractor, and health officer. If a medical professional certifies that a student has a chronic physical condition unlikely to substantially improve within one (1) year, then the one signed statement is sufficient for services that extend beyond six (6) months. This exception does not apply to students with mental health conditions.

Exemptions of all children under the provisions of subsection (1) (d) of this section must be reviewed annually with the evidence required being updated, except that children with disabilities certified by a medical professional to have a chronic physical condition unlikely to substantially improve within three (3) years may continue to be eligible for home/hospital instruction services, based on the admissions and release committee's (ARC) annual review of documentation to determine if updated evidence is required. Updated documentation of evidence of need for home/hospital services for children with chronic physical conditions shall be provided as requested by the ARC, or at least every three (3) years.

Pursuant to 704 KAR 7:120, the condition of pregnancy is not to be considered a physical or health impairment in and of itself, and the nature and extent of any complication shall be delineated prior to consideration of home/hospital instruction for this condition.
